

Premium Tattoo After-Care Instructions

The following process pulls all blood and plasma out of the tattoo, allowing for a smooth relatively scab-free heal. **TAKE CARE OF YOUR TATTOO!**

1. Remove plastic wrapping in one(1) hours time.
2. Take a clean paper towel and soak towel in HOT water.
3. Apply moist HOT towel to tattoo. Hold in place until towel has gone cold.
4. Repeat eight(8) times.
5. Allow tattoo to air dry.
6. Apply a thin coat of Aquaphor.
7. Use Aquaphor a few times a day for two(2) days. This will keep the tattoo moisturized.
8. After two(2) days of ointment, switch to a *fragrance free* lotion.

REMEMBER

- Shower as normal. No baths!
- No swimming or soaking.
- No picking or scratching.
- No sunbathing or tanning baths.
- Under normal circumstances, tattoo should be healed within two(2) weeks.

TOUCH UP POLICY

There is one(1) complimentary normal touch-up service provided after completion of all sessions for this tattoo. Normal is defined by the healing inconsistencies that have occurred within the normal two(2) week healing period.

Instances in which the complimentary touch-up services are null and void: soaking while healing, scratching or scratches, fading due to excessive sun or tanning bed use. Changes made to the completed tattoo are considered a new tattoo and totally separate from the original piece. Hourly rates apply for any changes made to the completed tattoo. The complimentary touch-up service must be used within one(1) calendar year of the completion of the tattoo. Touch-up appointments will only be accepted Tuesday – Thursday on an appointment only basis.
